

57

Needs attention — some margin leaks to fix

Cost Health Score based on cache efficiency, model mix, spend spikes, and cost concentration.

TOTAL SPEND

\$46.28

across 6 days

PROJECTED MONTHLY

\$231.40

at current daily pace

PROJECTED ANNUAL

\$2,815.37

if nothing changes

Model Breakdown

Model	Cost	Share
claude-sonnet-5	\$31.29	68%
claude-opus-4-8	\$10.94	24%
claude-haiku-4-5	\$4.05	9%

Cache Efficiency

17%

Too low — enable prompt caching to cut costs

Premium Model Share

100%

High — consider routing some calls to cheaper models

Spend Spikes Detected (1)

● Jul 2 — \$16.26

This is a one-time snapshot. AI Observly shows these numbers live, broken down by customer, feature, and pricing plan — updating automatically as your product runs.
